Subject UTA Oil Drain POLREP #1

OSC Al Lange had initiated investigation of an oil spill from a surcharging storm sewer line onto surrounding surfaces in the northwest corner of the Salt Lake City metropolitan area. This sewer line outfalls into the Oil Ditch (aka the 'NW Drain') which flows into the Great Salt Lake. This sewer line drains, in part, property recently purchased by the Utah Transit Authority (UTA). The OSC's POLREP #1 is attached. If you have any questions, please call Al at 303.312.6987.

Thanks.
Floyd
